

Sinclair Broadcasting Group is engaging in a blatantly partisan attack on Senator John Kerry. They are abusing their priveledges as broadcasters -- broadcasting on the airwaves which belong to no party, no corporation, but to the American people.

I urge the FCC to use its regulatory powers to put a stop to this misuse of public resources. If you cannot do this very basic piece of protecting the public from corporate malfeasance, how can you justify your salaries... which, by the way, are also paid by the American public.

Thank you for your time,
sincerely,

Benjamin Abrahamse
